# Course

## 5 Ziplines

With 5 ziplines ranging from 300 to 1,800 ft long, you will soar through and over canyons **500 ft** below!

## 2 Suspension Bridges

Get your adrenaline pumping as you cross our 200 ft long bridges and see spectacular views of Colorado Springs.

## 180 ft Assisted Rappel

Finish with a thrill as you descend to the canyon floor and land next to a babbling brook.

 3.25 hours

**\$170.00 per person**

Participants will begin the Fins Course with a 10 minute drive up the historic Old Stage Road. After a short 10-15 min hike downhill, the group will meet their guides! The guides will take the group through a short orientation and Ground School where they can practice their techniques before starting the tour.

The first two “warm up” lines allow participants to get the feel for the essential zipping techniques. The third zipline, at 400 feet long, offers beautiful and impressive views of the Seven Falls Canyon.

Standing on top of the fin-like formations, participants will get to experience the views that inspired this unique course. Participants will see the two suspension bridges they must cross to finish the course.

From the cliff side, participants must put one foot in front of the other to cross the first 200 foot long suspension bridge. While taking a break, their guides can display some of the impressive engineering needed to make this course possible.

Participants will then brave the second 200 foot long suspension bridge with spectacular views of the Broadmoor and Colorado Springs as their reward.

Heartbeats will begin to race as participants prepare to cross the 1,400 foot zipline and reach their highest point of 500 feet! They will land one of our coolest platforms. It is suspended on the side of a cliff!

As they catch their breath, the guides will hook the participants into the final, 1,800 foot zipline. This final zip take participants up the Seven Falls canyon and over the trail leading to Seven Falls. Now is the perfect time to let other people know how much fun they are having.

If their hearts were not pumping after the fifth zip, they will be pumping during our unique ending. Participants will descend to the canyon floor on a 180 foot assisted rappel. Seven Falls visitors will watch in amazement as you are lowered down the ridgeline.

Remember to visit the seven waterfalls that gives this park it’s name before heading back to the Broadmoor.
